Commercial Residential Address / School Address

Most orders will ship by truck with a tailgate delivery. The truck driver is only responsible for moving the pads to the end of the trailer. You will be responsible for removing the pads from the truck, checking them over for damage and bringing them inside. You must check carefully for damage and note it on the bill of lading before the driver leaves. Any damage reported after the driver leaves will not be covered.

Information needed for I Beam padding is listed below. Fill in measurements of beam on diagram. If you need to cover four sides of the beam you need a square post pad. If you require pricing on more than one post please measure each post. When measuring, measure carefully and double check your measurements. **Pads are made to order and are not returnable.**

Beam 1

If your I beam is sticking out of a wall you need an I beam pad.

Measurements needed are from your post not from your existing post padding.

Beam 2

If you need to cover all four sides of an I beam, you need a square post pad.

Quantity: _____

Beam 1:

Measurement 1: _____ Measurement 2: _____ Measurement 3: _____

or
